~The Pastoral Search Team met with Bishop Jason on January 29 to begin the process of hiring a Pastor for our congregation. The first step, of course, is to find persons who would be a good fit for our congregation. We are opening this up to each of you to submit name(s) of pastors who you feel would be good candidates for Witmer Heights. Please give your suggestions in writing to one of the Search Team members. They are Neil Reinford, Marvin Weaver, Jon Stoltzfus, Madeline Mast, Shelby Swartley and Eileen Ranck. In addition to the name, please include contact information, i.e. address, email, phone, and a brief description of how you know him/her or why you feel he/she would be a good fit. **Submit these recommendations by Sunday, March 16.**

~**Witmer Heights is having a workday** at the MCC Material Resource Center in Ephrata on **Monday, April 7 from 9:00 am to 3:00 pm**. Those who would like to join the fun will meet at the Resource Center on the 7th. If you want to attend but don't have a ride, please contact Sophia Mast (717-393-6806) about carpooling options! Thanks for your willingness to be Christ's hands and feet!

~**CONNECTIONS is for women of all ages** and meets on Tuesday mornings in the fellowship hall at Mellinger Mennonite Church. **Tues., March 4**, the topic will be **“Getting Children Back to Nature”** with speaker, Dot Leatherman. Spending time outdoors in nature has a calming effect on children and adults. However, many children are now spending more time indoors for various reasons. This session presents benefits of time spent in natural settings and gives fun ideas of activities for families, especially activities with young children. **NOTE: Tuesday March 11th will be a Connections Make-up Day. Originally there wasn't anything scheduled for that date because it was during spring break. Speaker will be Ann Gibble. Her topic will be “The Power of a Thankful Heart.”**

BASTROP, TEXAS - Disaster: 2011 Wildfires

Our volunteers are very productive. Mr. Jacob's interior trim was installed. Ms. Lyla's floors are installed and Mr. Nate and Ms. Michelle's house has its drywall finished. Ms. Dusty and Mr. Mike's house now has electricity, plumbing, and lots of insulation. Mr. Jim's house looks like a house and not a pile of lumber next to some concrete blocks.

BASTROP, TEXAS: RV PROJECT - Disaster: 2011 Wildfires

It was a busy week getting Ms. Lisa's house ready for the house blessing on Thursday. Don and Char did the window buildup and casings. Alvin installed the rest of the interior doors and bi-fold

Char did the window buildup and casing. Alvin installed the rest of the interior doors and bi-fold doors while Marlene came along and applied the casing. Cornie and Bruce worked at the plumbing and wiring details that always need doing when a job reaches the completion stage. Martha and Char painted the bi-fold doors and while Helen finished painting the skirting.

BRAITHWAITE, LOUISIANA - Disaster: 2012 Hurricane Isaac

We completed repairs on three homes this week in addition to working on the new home for Ms. Lillie Mae. The whole group worked at Mr. Kal's house on Monday, installing an exterior door and skirting on the exterior of his mobile home. A section of a damaged interior wall was also replaced. We were able to complete the roof cap on Ms. Lanore's house and fix an electrical problem at Ms. Brenda's house.

CRISFIELD, MARYLAND - Disaster: 2012 Hurricane Sandy

We had an energetic group this week from Bluffton, OH, that stepped right in and did the necessary little things without complaint. Little things like breaking up concrete, cleaning debris, and going back to the job site late in the evening to brush drying concrete. They almost completed a complex wheelchair ramp that incorporated an existing elevated deck under which lives a pot-bellied pig. A new build will be started next week.

DULUTH, MINNESOTA - Disaster: 2013 Floods

Two different groups arrived this weekend, one from Manitoba, and the other from the Minneapolis area. They brought many skills with them to help us with the finish-up stages of three homes. At Mr. Ray's house volunteers continued with finishing the trim work. The crew installed door casing and base, and worked on countertops at Ms. Pat's house, then finished the framing and window installation at Mr. Eric's house.

FAR ROCKAWAY, NEW YORK - Disaster: 2012 Hurricane Sandy

This week's group of 20 volunteers joined us from Saskatchewan, Canada. They accomplished many things at several houses. At Ms. Josephine's house, some framing was done, doors were customized and installed, two sump pumps were installed (which required a lot of concrete work), work was done on the stairs, trim installation was finished, the drop ceiling was installed and painting was done.

HATTIESBURG, MISSISSIPPI - Disaster: 2013 Tornadoes

Bernie and Jake completed the plumbing. The bedrooms are ready for paint and most of the other mudding is nearing completion. On Friday we passed the plumbing inspection so now we can close in the rest of the walls.

HIGH RIVER, ALBERTA - Disaster: 2013 Flood

Work continues at Mr. Daniel and Mrs. Krystal's house. Volunteers carried out extensive framing work and helped the owner with electrical and plumbing renovations and most of the drywall hanging is completed and ready for finishing. Work at Mrs. Kat and Mr. Max's house started with removing plaster from main floor walls. A highlight of the past week was having Mrs. Kat and Mr. Max share with the volunteers about their experience going through the flood and recovering from it.

SAYREVILLE, NEW JERSEY - Disaster: 2012 Hurricane Sandy

At Mr. Vasily's house the ceramic tile flooring in the dining room was started and laminate flooring was laid in the living room. Sub-flooring was put in the kitchen and we are waiting for delivery of the kitchen cabinets. Volunteers finished painting the entire house; all three levels. Volunteers also tore out flooring and installed a sub-floor and then vinyl flooring at Ms. Shirley's house.

SHAWNEE, OKLAHOMA - Disaster: 2013 Tornadoes

We are just about done with the work at Mr. Bill's house. Shingles are on the roof and the metal storage building is nearly done. James said Mr. Bill got choked up with gratitude, and that talking to people is the best part of working on their homes. Only final touches are left to do at Miss Marv's. Her roof is replaced. storm door put on. fascia and soffit repaired or replaced. and trees

Mary's. Her roof is replaced, storm door put on, fascia and soffit repaired or replaced, and trees trimmed and cleaned up per her special request.

[STATEN ISLAND, NEW YORK](#) - Disaster: 2012 Hurricane Sandy

We had a great week again in Staten Island, with an energetic group of 15 students from Conrad Grebel University in Waterloo, ON, two volunteers from Orillia, ON, and five men from NY. We had some new long-term volunteers join us from ON and BC and cooks from NY. The week consisted of a lot of drywall hanging, mudding, sanding and priming. The students were willing to learn new skills and help in whatever way they could.
